

NAGRA SCOUT SHIELD

Foundational, Effective Cybersecurity

Executive Summary

Safeguard the digital world of every subscriber with effective, foundational cybersecurity.

In today's connected world, subscribers expect their digital lives to be secure, but they want the security to be complexity free. NAGRA Scout Shield delivers just that—essential, foundational cybersecurity that proactively protects against common cyber threats. Operating on public cloud infrastructure, Shield provides continuous protection across all connected devices, no matter where they are used. With an intuitive app for easy management, Shield ensures peace of mind for your subscribers while driving loyalty and quick deployment for you.

Shield comes automatically with NAGRA Scout Synthesis, a solution that provides aggregated and anonymized data insights into subscriber behavior. These insights enable you to optimize network performance, identify new revenue opportunities, and further enhance subscriber engagement.

Additionally, NAGRA Scout supports Telcos in fulfilling the requirements of Regulation (EU) 2024/2847 Cyber Resilience Act (CRA), aligning your operations with EU standards.

Solution Benefits

- 1 Essential Protection** Deliver foundational security that safeguards all subscribers' digital assets from common cyber threats, while building trust and loyalty as they navigate their digital lives with confidence.
- 2 Proactive Defense:** Provide continuous, real-time protection that can identify and neutralize emerging threats before they turn into security breaches and impact subscribers.
- 3 Empowered Subscribers:** Equip subscribers with an intuitive app that allows them to manage their cybersecurity effortlessly, giving them control over their digital environment.
- 4 Effortless Integration:** Strengthen your overall cybersecurity strategy with a solution that deploys rapidly via public cloud infrastructure, ensuring comprehensive protection without additional complexity for you or your subscribers.

The Foundation of Digital Defense: Essential Security for Subscribers

Identify

- **Device Category Filtering:** Discover and categorize all devices on the network.

Protect

- **Malicious Website Protection:** Block harmful sites and apply category filters for safe browsing.
- **Anomaly Detection:** Identify and mitigate unusual activities to maintain network security.
- **Personal Data Leakage Prevention:** Prevent unauthorized sharing of sensitive information for data privacy.

Filter

- **Content Filtering:** Enhance security with customizable filters to block inappropriate or harmful content.
- **Internet Access Control:** Temporarily pause Internet access immediately or on a schedule for better management.

Troubleshoot

- **Service Optimization:** Troubleshoot and enhance the performance of popular services for a better user experience.

Foundational Protection, Effortless Implementation

Ensure base-level security for every subscriber with NAGRA Scout Shield. As a foundational layer of digital defense, Shield offers essential protection against cyber threats while being easy and cost-effective to deploy. This solution provides peace of mind and trust for subscribers by safeguarding their digital interactions, while also streamlining your implementation process and enhancing overall cybersecurity.

Identify

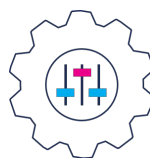

Accurately recognize and classify every device connected to the network, ensuring comprehensive visibility.

Protect

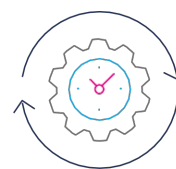

Block harmful sites, detect anomalies, and safeguard personal data privacy.

Filter

Customize filters to block harmful content and control internet access.

Troubleshoot

Effectively troubleshoot and optimize the performance of widely-used services.

GLOBAL PAY-TV LEADER, \$1B REVENUES, LONG-TERM STABILITY

Who We Are

Successful Projects

500+

TV PROVIDERS GLOBALLY

Focused on helping solution providers increase monetization and consumer reach through comprehensive security solutions.

Satisfied clients

500M

PROTECTED DEVICES DAILY

Customer-focused. Delivering solutions as a service to optimize time to market and reduce operational overheads.

Customer Protection

4000+

PATENT PORTFOLIO

Robust IP protection with over 500 patents attributable to a wide range of innovative technology solutions.

Fully Charged and Ready

The Kudelski Group has a corporate history in the secure content, secure device and cybersecurity industries, and is one of the very few Amazon Authorized Security Test Labs in the world.
